

High Potential

Is Your Child GIFTED
but also has a
Learning Disability or Learning Difference?

Under Achieving

Speaker

Corinne Bees

The nature of Gifted/LD kids is not generally well understood, as such most go undiagnosed. They don't fit the mold of our education system very well and the emotional roller coaster causes a huge dropout rate. Understanding and proper support are essential to make graduation a possibility. Corinne Bees created this possibility 20 years ago with the GOLD Program.

Join us for an information evening to learn more about GOLD, G/LD kids and what you can do.

Thursday, June 18th, 2009

Fraser Heights Secondary
16060 – 108th Avenue, Surrey, BC
